**Re: Letter of Reference - Waste Audit for  
Shared Services West Health Care Facilities**

Dear Sir:

AET Consultants Inc. have worked collaboratively with SNC-Lavalin Inc. over the past months in carrying out **waste audits** for seven (7) health care facilities operated by Shared Services West situated in Halton, Peel and the west end of Toronto.

Over the course of the project work, AET staff performed all necessary tasks in a professional, courteous and timely manner to ensure the successful completion of the project. The satisfaction of the client resulted in a sole sourced bid to provide similar services at other health care facilities that they manage.

For this project, AET served as the lead in carrying out the waste audits under less than ideal circumstances which required special provisions to address the following:

- hazards associated with handling biomedical and other hazardous materials commingled with non-hazardous waste materials;
- insufficient space within the facilities to store and sort the materials; and
- logistics of material collection in large hospitals.

We enjoyed working with AET and look forward to further opportunities to do so.

Yours truly,

**SNC-Lavalin Inc.**
